SUMMARY

I'm a 3rd-year BCA student with a solid foundation in web development and programming. I'm skilled in JavaScript, React.js, Tailwind CSS, SQL, PHP, and tools like Git/GitHub and Cursor. I love creating responsive, user-friendly web applications and leverage AI tools to enhance my efficiency and productivity in projects.

I have a strong understanding of data structures and algorithms and enjoy solving complex problems using Java and Python. I'm passionate about web development and excited to use my technical skills to build innovative solutions that make an impact.

I'm now looking for a role where I can contribute to meaningful projects, learn from industry experts, and continue growing as a developer.

EDUCATION

BCA in Computer Science, Don-Bosco College Panjim (GPA: 8)   Jun '22 — Jun '25

Goa, India

PROJECTS

Barter Bridge

- Barter Bridge is an innovative web platform designed to facilitate seamless trading and purchasing of goods among users.
